Small Group Questions

Notes

I The Terms

1. If wearing a veil or head-covering was among the cultural distinctions between man and woman in the 1st century church, what are they today? Like they were being eroded in the Church of Corinth, are they anywhere being eroded in today's church?
2. Satan's sleight-of-hand has confused and crippled much of the church with regards to the roles of men and women. Hopefully, this morning's passage helped us see the main thing and do it in our families and church. In what other matters has Satan also succeeded in distracting Christians from the main thing?
3. In verses 4-5, Paul discusses praying and prophesying (not telling the future, simply speaking God's truth to people's lives) being done both by men and women. Does this passage then teach that women should be pastors?

II The Issues
